Hi Emily,

I am surprised! I am free from now until 1 PM, and then I am free from 3 PM until 5 PM.

Thanks,
John

Hi John,

A phone interview with the reporter has been approved. What's your availability to do that today? Once we get a time settled on, the EPA press officer in the EPA Office of Public Affairs will send out a meeting invitation to you and the reporter. At the interview time, the EPA press officer will open up the phone line, introduce the two of you, and then the reporter will be able to interview you.

Anyway – let me know good times for you today! Interviews are typically about 10-20 minutes long, depending on how much info the reporter needs.

Subject: Responses from John Washington- NJ.com looking to talk about CIPFPECA research

Hi Jennifer & David- John Washington got an interview request on his recent paper from Michael Warren with NJ.com and The Star-Ledger in New Jersey. Below are John's draft responses. The reporter would like to speak with John by tomorrow afternoon. Are you okay with him speaking to the reporter about this?

- What is CIPFPECA? How long has it been around, why was it developed and what is it used for?

CIPFPECAs are a family of chemical compounds having the formal name chloroperfluoropolyether carboxylates Ex. 6 Personal Privacy (PP)

Ex. 5 Deliberative Process (DP)

- Where else has CIPFPECA contamination been found? Why would South Jersey be a place for these chemicals to be concentrated?

Ex. 5 Deliberative Process (DP)

- What do we know about potential health effects of CIPFPECA exposure? What do we not know?

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Thanks,

Megan
